Basic Researching Tips:

- 1) First Search Google:
 - a. Make sure to use the bible study topic in your search
 - b. Phrase the question using *Why?When?What?How?* etc
 - c. Do a general research for starters, finding the meaning, then sift through the pages that show up on the 1st and 2nd page of Google
 - d. For better results add phrases like “in the bible days”; “in Jesus’ time” “Jewish customs”
 - e. Identifying the chapter and/or verse can help Google fine-tune the research
 - f. **For example:** In John 1: 25 -33 you read that John was baptizing with water. Using the Bible study topic : “Baptize” or “Baptizing” , I would first find out “what does baptize mean” ; then “baptizing the bible days, how was it done?”; and “baptizing, John chapter 1”
- 2) **Second** use a ***Bible Dictionary*** to look up the term “baptism”
- 3) Third, find, and read supporting scriptures on the same topic: using a ***Bible Concordance***

Just this basic research will produce a lot of information to read through. Make sure to note your findings in the area below.

You may realize that out of one topic, comes other questions and/or sub-topics as you read through your findings. Continue researching until you are satisfied that you’ve answered your question(s) thoroughly.

Yayy!

You’ve completed your first research on a bible study topic.
